INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS AND THE MANAGEMENT BOARD OF "MTEL" a.d. BANJA LUKA

Opinion

We have audited the separate (unconsolidated) financial statements of "Mtel" a.d. Banja Luka (the "Company"), which comprise the separate statement of financial position as of 30 June 2017, and the separate statement of profit and loss and other comprehensive income, separate statement of changes in equity and separate statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying unconsolidated financial statements present fairly, in all material respects, the unconsolidated financial position of the Company as of 30 June 2017, and its unconsolidated financial performance and its unconsolidated cash flows for the six month period then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* (IESBA Code), together with the ethical requirements relevant for our audit of financial statements in the Republic of Srpska, and we have fulfilled our other ethical responsibilities in accordance with these requirements and IESBA code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS AND MANAGEMENT BOARD OF "MTEL" a.d. BANJA LUKA (Continued)

Key Audit Matters (Continued)

Key Audit Matter	Audit procedures applied
1. Revenue recognition (accuracy of recording revenues due to the complexity of the information systems for generating income from services rendered), Note 5 to the financial statements	

There are inherent risks associated with the accuracy of recognized revenues arising from the complexity of information systems (IT) of the Company, through which the realised traffic, billing, approved free traffic and other discounts in the revenue generation process are measured.

We assessed the Company's most important IT systems for recording the realised traffic, billing and invoicing services to customers and conducted tests of relevant controls over these systems, tested the relevant control over the transfer of data from the respective information systems to the general ledger, as well as controls over the process of payments of bills by the customers and the process of customer complaints resolution. We tested the compliance of prices and discount terms on customers' invoices with the current pricelist and discount terms on a sample basis.

Based on the procedures performed, we have not identified significant findings in relation to the accuracy of the revenue recorded for the six-month period ended 30 June 2017.

Key Audit Matter	Audit procedures applied
2. Accrual of income and expenses due to the assessment of contracted and realised roaming discounts in the international traffic , Notes 23 and 31 to the consolidated financial statements	

Accrued income of the Company from the roaming discounts contracted with other operators in the international traffic, as well as accrued expenses for roaming discounts granted to other operators by the Company were selected as key audit matter due to the fact that they include a significant scope of management estimates relating to meeting the requirements from individual contracts with specific operators.

We reviewed contracts with major operators per income generated/expenses incurred from the roaming discount, tested sales/purchase invoices to/from operators on a sample basis and checked their accuracy, as well as their compliance with the terms defined in the agreements on roaming discounts. We have verified the billing of the amount of roaming with clearings and settlements received from clearing houses in the six-month period ended as of 30 June 2017.

Based on the procedures performed, we have not identified significant findings in relation to the accrued discounts based on the roaming traffic realised in the six-month period ended as of 30 June 2017.

In addition, we have checked the consistency in the application of the Company's accounting policies when recording the roaming discount.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS AND MANAGEMENT BOARD OF "MTEL" a.d. BANJA LUKA (Continued)

Key Audit Matters (Continued)

Key Audit Matter	Audit procedures applied
<p>3. Capitalisation of costs of investments in intangible assets and property, plant and equipment, and their measurement after initial recognition, Notes 12 and 13 to the financial statements</p>	

The aforementioned key audit matter is chosen due to the fact that it includes significant Company management estimates in the capitalization of costs of investments in software and property, plant and equipment, as well as upon determination of the depreciation/amortization period and subsequent measurement of the recoverable value of these assets due to the relatively rapid technological changes that are characteristic of telecommunications industry.

Based on the procedures performed, we have not identified significant findings in relation to the adequacy of capitalization of costs of investments in intangible assets, plant and equipment, as well as their subsequent measurement after initial recognition in the six-month period ended as of 30 June 2017.

We have tested on a sample basis the costs of the Company recorded on costs of the current period, as well as the increase the Company recorded during the year on intangible assets and property, plant and equipment, from the standpoint of meeting the criteria for capitalization of costs, i.e. their recognition as costs in the current period.

We have analysed the Company's management estimates relating to the existence of impairment indicators for intangible assets, property, plant and equipment, such as changes in use, reduction in the market value, identification of physical damage, etc. We have reviewed the depreciation/amortization rates applied in relation to useful lives of assets, asset replacement schemes, historical disposals experience, as well as income and expenses from disposal of certain assets. We have tested the internal controls implemented by the Company's management in this process.

Based on the sample we have checked the arithmetic accuracy of the calculation of depreciation/amortization and compared the rates with the prior accounting period. In addition, we have tested construction in progress by the ageing structure of an investment, its physical condition, additional costs capitalized during the period, at the moment of placing in use and the beginning of depreciation/amortization.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS AND MANAGEMENT BOARD OF "MTEL" a.d. BANJA LUKA (Continued)

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the interim financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS AND MANAGEMENT BOARD OF "MTEL" a.d. BANJA LUKA (Continued)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (Continued)

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

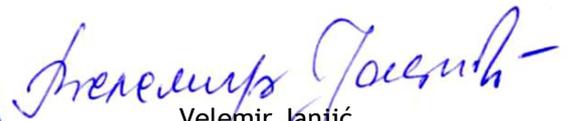

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Velemir Janjić.

Banja Luka, 28 July 2017

Velemir Janjić
Certified auditor
BDO d.o.o. Banja Luka

Mr. Dragan Đurđević
Mr. Dejan Carević
Mr. Slavko Mitrović
Mr. Draško Marković
Mr. Nenad Tomović
Mr. Branko Malović

The members of the Executive Board on the accompanying separate financial statements issuance date were as follows:

Mr. Marko Lopičić
Ms Jasmina Lopičić
Mr. Miodrag Vojinović
Ms Radmila Bojanić
Mr. Vladimir Četrović
Mr. Nikola Rudović

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017

2. BASIS OF PREPARATION AND PRESENTATION OF THE SEPARATE FINANCIAL STATEMENTS AND ACCOUNTING CONVENTION

2.1. Statement of Compliance

The accompanying financial statements represent separate financial statements of the Company are prepared in accordance with the International Financial Reporting Standards (IFRS).

2.2. Basis of Measurement

The separate financial statements of the Company have been prepared on the historical cost basis, except for the revaluation of certain financial instruments, available-for-sale financial assets, which are measured at fair value, as further explained in accounting policies for financial instruments.

Historical cost is generally based on the fair value of consideration paid in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between the market participants at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. Upon estimating the fair value of assets or liabilities, the Company takes into account characteristics of assets or liabilities that other market participants would also consider upon determining the price of assets or liabilities at the measurement date.

As disclosed in Notes 1 and 15 to the separate financial statements, the Company "Mtel" a.d. Banja Luka has an interest in the associate "Mtel" d.o.o. Podgorica (Montenegro), in which it holds a 49% equity interest, over which the Company has significant influence and the power to participate in the financial and operating policies and decisions of the associate but this power is not control or joint control over those policies and decisions.

In these separate financial statements investments in the associate are stated at cost less impairment, if any. In accordance with International Financial Reporting Standard (IFRS) 10, "Consolidated Financial Statements", the Company has prepared and issued its consolidated financial statements for the six-month period ended 30 June 2017, prepared in accordance with the International Financial Reporting Standards, where the investment in the associate was accounted for using the equity method.

2.3. Functional and Presentation Currency

The figures in the accompanying financial statements have been stated in Convertible Marks (BAM), BAM being the official functional and reporting currency in the Republic of Srpska and Bosnia and Herzegovina.

2.4. Application and Impact of the new and revised IAS/IFRS

Amendments to the Existing Standards Effective in the Current Period

The following amendments to the existing standards issued by the International Accounting Standards Board have been effective over the current period:

- Amendment to IAS 12 "Income Taxes" – Recognition of deferred tax assets for unrealised losses (effective for annual periods beginning on or after 1 January 2017),
- Amendment to IAS 7, "Cashflow Statements", Disclosure initiative - (effective for annual periods beginning on or after 1 January 2017).

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017

2. BASIS OF PREPARATION AND PRESENTATION OF THE SEPARATE FINANCIAL STATEMENTS AND ACCOUNTING CONVENTION (Continued)

2.4. Application and Impact of the New and Revised IFRS (Continued)

Amendments to the Existing Standards Effective in the Current Period (Continued)

Adoption of these standards, revisions and interpretations has not resulted in significant changes to the accounting policies of the Company or the impact to the accompanying separate financial statements of the Company.

New and Revised Standards and Interpretations in Issue not yet in Effect

At the date of authorization of these financial statements the following standards, revisions and interpretations were in issue but not yet effective:

- Amendment to IAS 40 "Investment Property" relating to transfers of investment property (effective for annual periods beginning on or after 1 January 2018),
- Amendments to IFRS 2 "Share-based Payment" - Classification and Measurement of Share-based Payment Transactions (effective for annual periods beginning on or after 1 January 2018),
- Amendments to IFRS 4 "Insurance Contracts" regarding the implementation of IFRS 9 "Financial Instruments" (effective for annual periods beginning on or after 1 January 2018),
- IFRS 9 "Financial Instruments" (effective for annual periods beginning on or after 1 January 2018),
- IFRS 15 "Revenue from Contracts with Customers" (effective for annual periods beginning on or after 1 January 2018),
- Amendments to IFRS 15 "Revenue from Contracts with Customers" (effective for annual periods beginning on or after 1 January 2018),
- Amendments to various standards (IFRS 1, IFRS 12 and IAS 28) as a result of annual improvements project standards, "2014-2016 Cycle", published by the IASB in December 2016 (effective for annual periods beginning on or after 1 January 2018),
- IFRIC 22 "Foreign Currency Transactions and Advance Consideration" (effective for annual periods beginning on or after 1 January 2018),
- IFRS 16 "Leases" (effective for annual periods beginning on or after 1 January 2019).

Management of the Company has decided not to adopt these standards, amendments and interpretations before they become effective. Management anticipates that the adoption of these standards, amendments and interpretations will have no material impact on the Company's financial statements in the period of initial application.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1. Revenues

Revenue Recognition

Sales income is presented at invoiced amount, less any effective discounts and value added tax. Income is recognized and recorded upon rendering the contracted services or sale of goods.

Interest income is recorded on an accrual basis, by reference to the principal outstanding and at the effective interest rate.

Revenue consists mainly from charges to customers for calls from the fixed line and mobile networks, monthly subscription fees charged for providing access services, sale of combined service, interconnections, Internet, integrated services and other similar services.

3.1.1. Income from Telephone Traffic – Fixed-Line Telephony

The Company recognizes usage (fixed-line telephony) revenue based upon traffic processed. Revenue due from foreign carriers for international calls is included in revenues in the period in which the call occurs.

3.1.2. Telecommunication Subscription - Fixed-Line Telephony

The telecommunication subscription to fixed-line telephony is invoiced on a monthly basis, one month in arrears.

3.1.3. Income from New Subscribers - Fixed-Line Telephony

Income from the connection of new subscribers to the fixed-line telephony represents income earned on invoiced fees for the connection of new subscribers and installation costs. The revenue for new customer connections is recorded in the period in which the user is connected and installation completed.

3.1.4. Income Interconnection with Local Operators

Income from interconnection with local operators relates to the access to the service network, establishing a physical and logical linking of telecommunication networks to allow the service users connected to different networks direct and indirect communication.

3.1.5. Income from Mobile Telephony

Mobile telephony income is associated with the income earned from mobile telephony users who use prepaid and postpaid services i.e. traffic, text messages, income from subscriptions, combined services and packages sold, data transfer, as well as other additional services, etc.

Sales income is recognized at the fair value of service provided, less any applicable discounts and value added tax. Revenue is recorded when the services are rendered.

Revenue from the telephony traffic is recognized on the basis of traffic. Uninvoiced income earned on mobile telephony services provided in the period from the invoice date up to the end of the period of calculation is accrued, while unrealized revenue until the end of the accounting period is deferred.

Income from prepaid usage services is recognized upon sale of the prepaid top-ups and deferred for the amount of unrealized income at the end of the period. These revenues are deferred over the period of the service provision. Inactive top-ups or top-ups with expired usage are recognized as revenue upon the expiry of the final usage date.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.1. Revenues (Continued)

3.1.6. Income from the Sale of Combined Services

Income earned on the sale of hardware is presented within item Income from the sale of combined services and is credited to income when the sale is realized, i.e. when the device/hardware is delivered to the package user and related costs recognized as expenses in profit or loss statement.

For combined services sold, the Company applies the relative fair value method whereby the future revenues are recognized at fair value of the services and the remainder is allocated to delivered components.

Other income from rendering services under customer contracts are deferred over the period that each such contract relates to.

3.1.7. Income and Expenses from International Settlements and Roaming

a) Income and Expenses from International Traffic

The Company has entered into various agreements on international traffic in fixed-line and mobile telephony. The respective income/(expenses) and receivables/(payables) arising from these agreements are presented in the accompanying financial statements and are associated with the income generated on all incoming and outgoing international calls realized with the countries maintaining direct international traffic calculations with the Company. A portion of the income earned or expenses incurred is recorded on the basis of an estimate made in accordance with the internal settlements for realized traffic.

The Company recognizes income (receivables) only when it can be measured with reasonable certainty. Where evidence exists that an expense (payables) may be incurred, a full provision is recognized, in instances where such an estimate is possible. When it is not possible to estimate the extent of a liability, an appropriate disclosure is made.

b) Income and Expenses from Roaming

Income and expenses arising from roaming with foreign operators are recorded at the amounts set by the clearing house. Income and expenses arising on roaming are recognized in the gross amount based on the traffic realized throughout the period.

3.1.8. Direct Access to the Internet

Income from direct access to the Internet is realized by providing a link for users to access the Internet at certain speeds, with a specific range of public IP addresses, DNS hosting domain names with or without registering Internet domain names and technical support.

3.1.9. Integrated services

Income from integrated services refers to the income from the distribution of program mix to users in the form of packages, which include digital IP television, ADSL Internet access, and fixed-line and mobile telephony.

3.1.10. Other Income from Telecommunication Services

Other income primarily includes the lease of telephony capacities, telephone lines, call listings, voicemail and other services. Such income is recognized and recorded in the accounting period in which it occurs.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.2. Financial and Operating Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Company as Lessor

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

The Company as Lessee

Assets held under finance leases are initially recognized as assets of the Company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the separate statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on borrowing costs.

Operating lease payments are recognized as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

In the event that lease incentives are received to enter into operating leases, such incentives are recognized as a liability. The aggregate benefit of incentives is recognized as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

3.3. Foreign Currencies

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to BAM at the foreign exchange rate ruling at that date.

Non-monetary assets and liabilities denominated in foreign currencies, which are stated at fair value, are translated into BAM at foreign exchange rate ruling at the transaction date.

Transactions in foreign currencies are translated into BAM by applying the exchange rate in effect on the date of each transaction. The foreign exchange gains or losses arising upon the translation of transactions and assets and liabilities components denominated in foreign currencies are included in the statement of comprehensive income (*Note 11*).

3.4. Corporate Income Taxes

Income taxes comprise current and deferred taxes. Current and deferred taxes are recognized in the statement of profit and loss and comprehensive income except for those related to a business combination or items recognized directly in equity or in other comprehensive income.

Current income tax relates to the amount payable in accordance with the Income Tax Law. Current income tax is payable at the rate of 10% applied to the tax base reported in the annual corporate income tax return, being the profit before taxation as reduced by any effects of reconciliation of income and expenses.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.4. Corporate Income Taxes (Continued)

The tax regulations in the Republic of Srpska allow for the reduction of the tax base for the amounts used in capital expenditures, for restoration of own manufacturing activity and for the amounts of the payroll taxes and contributions for over 30 newly employed staff members at the end of the financial year.

Deferred income tax is provided using the financial statement liability method, for the temporary differences arising between the tax bases of assets and liabilities and their carrying values in the financial statements.

The currently enacted tax rates or the subsequently enacted rates at the statement of financial position date are used to determine the deferred income tax amount, based on the tax rates that are expected to be applied to temporary differences when they reverse.

Deferred tax liabilities are recognized for all taxable, temporary differences. Deferred tax assets are recognized for all deductible temporary differences, and for the tax effects of income tax losses available for carry forwards, to the extent that it is probable that taxable profit will be available against which the deductible temporary difference and the tax loss carry forwards can be utilized.

3.5. Intangible Assets

Intangible assets include telecommunication licenses, acquired computer software and other licenses.

Telecommunication licenses, acquired computer software and other licenses are recorded at cost less accumulated amortization and accumulated impairment losses, if any.

Cost of an item of intangible assets comprises its purchase price, including import duties and non-refundable purchase taxes and any costs directly attributable to bringing the asset to the location and condition necessary for its operating capability. Cost is reduced by all received discounts and/or rebates.

Telecommunication licenses are amortized on a straight-line basis over their useful lives as delineated under IAS 38 "Intangible Assets".

3.6. Property and Equipment

Property and equipment are such assets whose expected useful life is longer than one year. Items of property and equipment are recorded at cost less accumulated depreciation and accumulated impairment losses, if any.

Cost is comprised of the purchase price, including import duties and non-refundable taxes, and any directly attributable costs of bringing the asset to working condition for its intended use. Any trade discounts and/or rebates received are deducted in arriving at the purchase price. Cost of the constructed property and equipment represents cost thereof as of the date of construction or development completion.

Gains on the disposal of property and equipment are credited directly to the statement of comprehensive income within "other operating income," whereas any losses arising upon their disposal are charged to "other operating expenses".

Adaptations, renewals and repairs that extend the useful life of an asset are capitalized. Repairs and maintenance are expensed as incurred and are presented as operating expenses.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017
3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)
3.7. Depreciation and Amortization

The depreciation/amortization rate is determined based on the estimated useful life of property, equipment and intangible assets.

The depreciation/amortization rates applicable to the assets are reviewed at least annually, at the end of each financial year, and if there are significant changes in the expected dynamics in the consumption of future economic benefits embodied in an asset, the depreciation/amortization rate is changed to reflect the altered dynamics. Such a change is recorded as a change in the accounting estimates in accordance with IAS/IFRS. Changes of depreciation/amortization rates for asset groups are submitted by the Management of the Company to the Company's Management Board for approval.

The basis for calculation of the depreciation/amortization is the cost of intangible assets, property and equipment less any estimated residual value. Depreciation and amortization are calculated on a straight-line basis.

The estimated useful lives of particular classes of property and equipment, as well as intangible assets used in the calculation of depreciation and amortization, and prescribed depreciation and amortization rates applied in the first six months of 2017 are as follows:

	Estimated Useful Life (in Years)	Rate (%)
GSM and UMTS licenses	15	6.67
Licenses and application software	5	20
Buildings	8 - 55.5	1.80 - 12.5
Antenna masts	16.7 - 20	5 - 6
Distribution network and channelling	16.7	6
Switching systems and service platforms	3 - 11	9.09 - 33.33
Transmission network	4 - 12.5	8 - 25
Wireless access network	5 - 12.5	8 - 20
Equipment within the access network and terminal equipment	4 - 11	9.09 - 25
Computers and computer equipment	4 - 5	20 - 25
Office furniture and other equipment	5 - 8	12.5 - 20

3.8. Non-Current Assets Available for Sale

Non-current assets are classified as assets held for sale if the carrying value thereof can be recovered primarily from a sales transaction rather than through further use.

This condition is deemed fulfilled only if the sale of an asset (or a disposal group) is highly probable and if the asset (or the disposal group) is available for immediate sale in its present condition. Management must be committed to a plan to sell such assets, and the sale should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets (or disposal groups) classified as held for sale are carried at the lower of their previous carrying amount and fair value less cost to sell.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.9. Impairment of Non-Financial Assets

At each statement of financial position date, the Company's management reviews the carrying amounts of the Company's non-financial assets (other than inventory and deferred tax assets) in order to determine whether there are indications of an impairment loss. If there is any indication that such assets have been impaired, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. In cases where it is impossible to assess the recoverable amount of an individual asset, the Company assesses the recoverable amount of the cash generating unit to which the asset belongs.

The recoverable value of an asset (or its related cash generating unit) is the higher of its fair value less costs to sell and value in use. The estimate of the value in use comprises the assessment of future cash inflows and outflows discounted to their present value by applying the pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the estimate is recoverable amount of assets (or cash generating unit) is below their carrying value, the carrying amount of the asset (or cash generating unit) is reduced to its recoverable amount and an impairment loss is recognized as an expense of the current period under operating expenses.

Impairment losses recognized in prior years are assessed at each reporting date for any indications that loss has decreased or no longer exists. Impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate of its recoverable value. However, this is performed so that the increased carrying amount does not exceed the carrying value that would have been determined had no impairment loss been recognized for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognized as income immediately, unless the respective asset is carried at a revalued amount, in which instance, the reversal of the impairment loss is treated as a revaluation increase.

As of 30 June 2017, in the management's opinion, there were no indications that the value of the Company's intangible assets, property and equipment had suffered impairment.

3.10. Investments in Subsidiaries

Investments in subsidiaries are carried at cost, net of impairment losses, if any.

Under IFRS 10 *Consolidated Financial Statements* control over subsidiaries is achieved if the Company has:

- 1) power over the investee;
- 2) exposure, or rights, to variable returns from its involvement with the investee, and
- 3) the ability to use its power over the investee to affect the amount of returns.

The Company reassesses whether it truly exercises control over its subsidiaries in instances of certain facts and circumstances indicating that any of the above listed three elements of control has changed.

When the Company has less than half of the voting power, control is achieved if these voting rights are sufficient to practically allow the Company to unilaterally direct the business activities of the subsidiary.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.11. Investments in Associates

An associate is an entity over which the Company has significant influence that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policies and decisions of the investee but is not control or joint control over those policies and decisions.

Investments in associates are measured at purchase value, net of any impairment.

3.12. Financial Assets

Financial assets are recognized and derecognized on a trade date where the purchase or sale of a financial asset is under a contract whose terms require delivery of the investment within the timeframe established by the market concerned, and are initially measured at fair value, including transaction costs.

Non-derivative financial assets are classified into the following specified categories: 'available-for-sale' (AFS), 'held-to-maturity investments' and 'loans and receivables'. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

Effective Interest Method

The effective interest method is a method of calculating the amortized cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or, where appropriate, a shorter period, to the carrying amount of the financial asset.

Income is recognized on an effective interest basis for loans and receivables and debt instruments other than the financial assets designated as at fair value through profit or loss.

Financial Assets Held to Maturity

Bills of exchange and debentures with fixed or determinable payments and fixed maturity dates that the Company has the positive intent and ability to hold to maturity are classified as held-to-maturity investments. Held-to-maturity investments are recorded at amortized cost using the effective interest method less impairment, with revenue recognized on an effective yield basis.

Financial Assets Available for Sale

Unlisted shares and listed redeemable notes held by the Company that are traded in an active market are classified as being AFS and are stated at fair value. For such investments a reasonable estimate of fair value is determined by reference to the current market value of another instrument which is substantially the same or is based on the expected cash flows or the underlying net asset base of the investment. Investments whose fair value cannot be reliably measured are carried at cost.

Gains and losses arising from changes in fair value are recognized directly in equity in unrealized gains/losses on securities available for sale with the exception of impairment losses, interest calculated using the effective interest method and foreign exchange gains and losses on monetary assets, which are recognized directly in profit or loss.

Where the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously recognized in the investments revaluation reserve is included in profit or loss for the period.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.12. Financial Assets (Continued)

Financial Assets Available for Sale (Continued)

Equity instruments classified as available for sale that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are stated at historical cost less impairment.

The fair value of AFS monetary assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the balance sheet date. The change in fair value attributable to translation differences that result from a change in amortized cost of the asset is recognized in the profit and loss, and other changes are recognized in other comprehensive income.

Loans and Receivables

Trade receivables, loans, and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables'.

Loans and receivables are measured at amortized cost using the effective interest method less any impairment. Interest income is recognized by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

Trade receivables are stated at their nominal value less allowance for impairment of receivables deemed irrecoverable. The allowance are formed for receivables which are past their due date, which, according to the management's estimates based on historical evidence about the potential losses due to irrecoverability thereof, receivables which over 60 days past-due.

Direct write-off of receivables is carried out in cases when impossibility of collection of the receivables is certain and documented. Receivables that are subject to offsets are impaired on the basis of net exposure principle.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held with commercial banks and any other highly liquid investments that are readily convertible to known amounts of cash, which are subject to an insignificant risk of changes in value.

Impairment of Financial Assets

Financial assets, other than those at fair value through profit or loss, are assessed for indicators of impairment at each statement of financial position date. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been impacted.

For unlisted shares classified as available for sale, a significant or prolonged decline in the fair value of the security below its cost is considered to be objective evidence of impairment.

For all other financial assets, including redeemable notes classified as available for sale and finance lease receivables, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty;
- default or delinquency in interest or principal payments; or
- probability that the borrower will enter bankruptcy or financial re-organization.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.12. Financial Assets (Continued)

Impairment of Financial Assets (Continued)

For certain categories of financial asset, such as trade receivables, assets that are assessed not to be impaired individually are subsequently assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Company's past experience of collecting payments, delays in collecting payments after maturity period, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortized cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate. The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account.

When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in the statement of profit and loss.

With the exception of AFS equity instruments, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed through the statement of comprehensive income to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been if the impairment had not been recognized.

In respect of AFS equity securities, impairment losses previously recognized through profit or loss (the statement of comprehensive income) are not reversed through the statement of comprehensive income. Any increase in fair value subsequent to an impairment loss is recognized directly in equity.

Derecognition of Financial Assets

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire; or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company continues to recognize financial assets.

3.13. Financial Liabilities

Financial liabilities comprise non-current liabilities (long-term borrowings and other long-term liabilities), current trade payables and other liabilities.

Financial liabilities are initially recognized at fair value less directly applicable transaction costs. Once recognized, financial liabilities are measured at the initially recognized amount less principal repaid net of any amount of write-off as approved by a creditor.

Financial liabilities are stated at amortized cost by applying the effective interest rate. Interest accrued on financial liabilities is charged to expenses of the respective period and is presented within other current liabilities.

Financial liabilities cease to be recognized when the Company fulfils the respective obligations, or when the contractual repayment obligation has either been cancelled or has expired.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.14. Inventories

Inventories are stated at the lower of cost or net realizable value.

The net realizable value is the estimated selling price in the normal course of business, after allowing for the costs of realization. Cost includes the invoiced amount, transport and other attributable expenses. Small tools and inventory are fully written off when issued into use. The cost of inventories is determined using the weighted-average method.

Materials for combined services mostly relate to the fixed and mobile telephone devices purchased for further sales to customers within special service packages.

Impairment allowances charged to other operating expenses are made where appropriate in order to reduce the carrying value of such inventories to the management's best estimate of their net realizable value. Inventories found to be damaged, or of a substandard quality are written off in full.

3.15. Provisions

Provisions are recognized and calculated when the Company has a pending present legal or contractual obligation as a result of a past event, and when it is probable that an outflow of resources will be required to settle the obligation, and when a reliable estimate of the amount can be made.

Provisions are comprised of provisions for litigations filed against the Company, determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the true value of money and the risks specified to the liability.

3.16. Employee Benefits

a) Employee Taxes and Contributions for Social Security

In accordance with local regulations and its adopted accounting policies, the Company is obliged to pay contributions to various national social security funds. These obligations include contribution payable by employees and the employer in the amounts calculated by applying the specific statutory rates.

The Company has a legal obligation to withhold contribution from gross salaries of employees, and on their behalf to transfer the withheld funds to appropriate government funds.

Contributions paid by the employees and the employer are expensed in the period during which services are rendered by the employees.

b) Retirement Benefits and Jubilee Awards

The Company has an obligation to pay to its employee retirement benefits upon retirement in the amount of three monthly salaries earned by the vesting employee.

In addition, the Company is obligated to pay jubilee awards in the amount between a half and one and a half of the average monthly salary paid by the Company.

IAS 19 *Employee Benefits* requires the calculation and inclusion of present value of accumulated rights to retirement benefits and jubilee awards.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.16. Employee Benefits (Continued)

c) Liabilities for Employee Bonuses (Variable Portion of Salary)

The relevant Decision enacted by the Company's General Manager defines the base for and manner of calculation of the employee bonuses as variable salary portion. Bonuses are paid according to the realized employee performance monitored on a quarterly or annual basis and recorded within staff costs as well as the provision in this respect when estimated that a vesting employee will become entitled to bonus payment.

3.17. Segment Reporting

The Company applies IFRS 8 *Operating Segments*, which requires the identification of operating segments based on internal reports about components of the Company that are regularly reviewed by managers responsible for making key decisions for the purpose of allocating adequate resources to these segments, as well as analysing their results. Segment information is analysed based on the type of services provided by the operating components of the Company (*Note 37*).

4. SIGNIFICANT ACCOUNTING ESTIMATES

The presentation of the separate financial statements requires the Company's management to make best estimates and reasonable assumptions that influence the assets and liabilities amounts, the disclosure of contingent receivables and liabilities as of the date of preparation of the separate financial statements, as well as the income and expenses arising during the accounting period.

These estimations and assumptions are based on historical experience and other information available as of the date of preparation of the separate financial statements. However, actual results may vary from these estimates.

Basic assumptions relating to the future events and other significant sources of uncertainties in rendering an estimate as of the separate statement of financial position date, which bears the risk that may lead to significant restatement of the carrying value of assets and liabilities in the ensuing financial year, were as follows:

Estimated Useful Life of Property, Equipment and Intangible Assets

The estimate of useful life of property, equipment and intangible assets is founded on the historical experience with similar assets, as well as foreseen technical advancement and changes in economic and industrial factors.

The depreciation/amortization rates applicable to the assets are reviewed at least annually, at the end of each financial year, and if there are significant changes in the expected dynamics in the consumption of future economic benefits embodied in an asset, the deprecation/amortization rate is changed to reflect the altered dynamics. Such a change is recorded as a change in the accounting estimates in accordance with IAS/IFRS. Management changes depreciation/amortization rates for asset groups. Changes are submitted by the Management to Board for approval.

Due to the significance of non-current assets in the Company's total assets, any change in the aforesaid assumptions may lead to material effects on the Company's financial position, as well as on its financial performance.

For example, if the Company were to shorten the average useful life of assets by 10%, this would have resulted in the six-month period ended as of 30 June 2017 in an additional cost of depreciation by BAM 5,069,294 (comparative figure in 2016: BAM 4,834,447).

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017

4. SIGNIFICANT ACCOUNTING ESTIMATES (Continued)

Impairment of Trade Receivables

Impairment for bad and doubtful receivables is calculated based on estimated losses resulting from the inability of customers to settle the liabilities to the Company when due.

The management estimates are based on the aging of trade receivables balance and historical write-off experience, customer credit-worthiness and changes in customer payment terms when evaluating the adequacy of the impairment allowance of doubtful receivables. This involves assumptions about future customer behaviour and the resulting future collections.

Management believes that no additional impairment allowance is required in excess of the allowance already recognized in these financial statements (*Notes 19, 20 and 21*).

Provisions

Provisions in general are highly judgmental. The Company assesses the probability of an adverse event as a result of a past event and if the probability is evaluated to higher than 50%, the Company fully provides for the total amount of the liability.

The Company is rather prudent in these assessments but due to the high level of uncertainty in certain cases the estimates may not prove to be in line with the actual outcomes.

Income and Expenses from International Traffic

Income (expenses) and receivables (payables) that have originated under agreements executed with international operators are presented in the accompanying financial statements and are associated with the income generated on all incoming and outgoing international calls realized with the countries maintaining direct international traffic calculation.

A portion of the income earned or expenses incurred is recorded on the basis of an estimate made in accordance with the internal settlements for realized traffic. Management believes that the internal calculations/accounts of international traffic are adequate and that they reflect the actually realized international traffic in the corresponding period.

Fair Value

It is the policy of the Company to disclose the fair values of those assets and liabilities for which published market information is readily available, and for which their fair value is materially different from the recorded amounts.

However, in the Republic of Srpska sufficient market experience, stability and liquidity do not presently exist for the purchase and sale of financial assets or liabilities for which quoted prices on an active market are not readily available. Hence, the fair value cannot be reliably determined in the absence of an active market.

The Company's management assesses its overall risk exposure, and in instances in which it estimates that the value of assets stated in its books may not have been realized, it recognizes a provision.

In the opinion of management, the reported carrying amounts are the most valid and useful reporting values under the present market conditions.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017

5. SALES OF GOODS AND SERVICES

	In BAM	
	Period ended 30 June 2017	2016
(a) Domestic Sales:		
<i>Fixed-Line Telephony:</i>		
- traffic revenue	11,737,289	14,033,170

The GSM license represents a special permit to provide GSM services in the territory of Bosnia and Herzegovina issued by the Communications Regulatory Agency of Bosnia and Herzegovina ("RAK"), for a period of 15 years from the date of the license issuance, as from 12 October 2004.

Another significant telecommunication license relates to the license for the Universal Mobile Telecommunication Systems (**UMTS license**). Namely, on 26 March 2009, RAK issued to the Company a license to provide mobile services within universal mobile telecommunication systems (UMTS license), valid from 1 April 2009 to 1 April 2024 (15 years).

Other intangible assets mainly consist of software.

Investments in progress mostly refer to the software in progress.

Logosoft d.o.o. Sarajevo

On 12 May 2014 the Company executed the Agreement on the Purchase of Equity Interest in Logosoft d.o.o. Sarajevo. Pursuant to the Agreement, the company acquired a 65% equity interest in Logosoft d.o.o. Sarajevo, and committed to purchase the remaining 35% equity interest from the former owner. As of 1 October 2014, the Company took over control of the subsidiary Logosoft d.o.o. Sarajevo. On 26 December 2016, the agreement on the sale and transfer of 35% of the equity investment (remaining portion of interest) on Logosoft d.o.o. Sarajevo, between the sellers and Mtel a.d. Banja Luka, as the buyer. On 21 February 2017, the Decision of the Municipal Court in Sarajevo on the change of stakes in the company Logosoft d.o.o. Sarajevo. On 9 March 2017, the Company settled the contracted commitment in full, in the amount of BAM 27,357,514.

The Company management assessed the potential impairment of the above mentioned investment into the subsidiary as of 31 December 2016, based on the analyses of the discounted cash flows, the sales volume realized through the current activities and the new activities, savings and investments as well as other operating activities of the subsidiary planned for the forthcoming periods. As of the date of compiling these unconsolidated financial statements there are no indications that the assumptions used in the analysis are the non-viable.

The effects of the business combination of acquiring Logosoft d.o.o. Sarajevo and other information in respect of this transaction are presented within the Company's consolidated financial statements.

Mtel Austria GmbH, Vienna, Republic of Austria

On 1 July 2014, the newly founded entity Mtel Austria, domiciled in Vienna was registered within the relevant Registry of the Republic of Austria. Mtel Austria was founded for an undetermined period in order to provide telecommunication services, with the initial permanent investment of EUR 35,000 as founding capital (equivalent to BAM 68,454).

In 2014, recapitalisation of the newly established company *Mtel Austria* amounting to EUR 3,500,000 (equivalent to BAM 6,845,405) was carried out, while in 2015, the entry of cash amounting to EUR 3,000,000 (equivalent to BAM 5,867,490) into capital reserves of the company was performed. Pursuant to the Decision of the General Manger, on 4 April 2017, the entry of cash amounting to EUR 500,000 (equivalent to BAM 977,915) into capital reserves of the company was performed.

Mtel Austria operates as a MVNO (*Mobile virtual network operator*).

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017
15. INVESTMENTS IN THE ASSOCIATE

	Interest	30 June 2017	In BAM 31 December 2016
- Cost of the investment in MTEL d.o.o. Podgorica	49%	74,563,739	74,563,739
		74,563,739	74,563,739

As of 30 June 2017, the Company held a 49% equity interest in Mtel d.o.o. Podgorica, Montenegro, which is also involved in provision of telecommunication services in the territory of Montenegro.

On 1 February 2010, the Company executed an agreement with Ogalar B.V. Netherlands on the purchase of a 49% equity interest in Mtel d.o.o. Podgorica (Montenegro) for the total amount of BAM 19,558,300 (EUR 10,000,000). During February 2010, the Company paid the full contracted amount. Following the purchase of the equity interest, based on Decision of the Company's Management Board number 1-02-5691/10 dated 26 March 2010, further investment in Mtel d.o.o. Podgorica was made in the total amount of EUR 19,600,000.

On 29 May 2015, the Management Board of Mtel a.d. Banja Luka enacted Decision approving the non-monetary capital contribution to the Telecommunications Company Mtel d.o.o. Podgorica through the transfer of entitlement to the 100% equity investment in Cabling d.o.o. Budva, thus increasing the value of the equity interest held by Mtel a.d. Banja Luka in Mtel d.o.o. Podgorica by EUR 8,500,000.

The ownership structure of the associate Mtel d.o.o. Podgorica remained unaltered as of these financial statements preparation date since the ultimate parent of the Group, Telekom Srbija a.d. Beograd, made a capital increase commensurately to its equity interest held in the associate.

The value of the total equity investment in Mtel d.o.o. Podgorica, after the originally agreed amount for the purchase of the initial 49% equity interest, capital increase and other costs directly related to this transaction, and finally, non-monetary contribution made, amounted to BAM 74,563,739.

Mtel d.o.o. Podgorica has prepared its interim financial statement for the period of six months, ended 30 June 2017.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017

	491,383,755	100.00	491,383,755	100.00

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017
25. EQUITY (Continued)
Share capital (Continued)

The Company's share capital in the amount of BAM 491,383,755 is fully paid in and divided into 491,383,755 ordinary shares, each with the par value of BAM 1. All shares are of the same class with equal rights comprising common stock (ordinary shares) and are registered in the name of the holder. Each share gives the right to one vote.

The Company's shares are listed on Banja Luka Stock Exchange (active but insufficiently developed financial market). The market value of one share as of 30 June 2017 amounts BAM 1.07 (31 December 2016: BAM 1.04). Earnings and dividend per share are disclosed in *Note 35* to the unconsolidated financial statements.

Legal Reserves

Legal reserves as of 30 June 2017, amounting to BAM 49,141,766 represent allocations from profit made pursuant to Article 231 of the Company Law in the amount of no less than 5% of the net profit for the year less prior year losses until such reserves, together with equity reserves, attain a level equivalent to 10% of the Company's total core capital or the legally defined greater portion of the core capital.

Legal reserves are used for loss absorption and if they exceed 10% of the core capital or the legally defined greater portion thereof they may be utilized to increase the registered capital.

Other Reserves - Reserves Arising on the Investment Commitment

Other reserves as of 30 June 2017 amounting to amounting to BAM 97,791,500 entirely pertained to the reserves formed during 2008 based on the execution of the commitment to invest undertaken by the majority owner (Telekom Srbija a.d. Beograd), as the purchaser of the majority block of the Company's shares.

26. INTEREST BEARING LOANS AND BORROWINGS

	30 June 2017	In BAM 31 December 2016

Kingdom of Spain Government	183,159	198,310	3,133,939	3,492,348
	18,493,121	15,454,237	35,372,933	38,196,003

The average interest rate accrued on long-term borrowings (loans for purchase of equipment) equals six-month EURIBOR as increased by the margin ranging from 0.8% to 1% annually (2016: six-month EURIBOR as increased by the margin ranging from 0.8% to 1% annually).

During the six months period ended on 30 June 2017, by obtaining new short-term and long-term borrowings, the Company purchased equipment in the aggregate amount of BAM 10,001,413.

The contractual currency for all loans, except for loans granted by the Government of the Kingdom of Spain and domestic suppliers, is EUR.

The outstanding interest payables related to the aforesaid loans as of 30 June 2017 are presented in Note 32.

The Company settles its liabilities arising from borrowings according to the contractually defined repayment schedules. The Company complies with all other loan agreement provisions. There has been no non-compliance that could give rise to any creditor demanding early loan repayment.

Maturities of long-term borrowings are presented in the following table:

	30 June 2017	31 December 2016
Current portions	18,493,121	15,454,237
From 1 to 2 years	19,639,513	20,076,596
From 2 to 3 years	7,498,110	11,990,600
From 3 to 4 years	3,207,032	2,712,093
From 4 to 5 years	2,156,970	717,607
After 5 years	2,871,308	2,699,107
Total non-current portion	35,372,933	38,196,003
	53,866,054	53,650,240

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017
27. DEFERRED INCOME

	30 June 2017	In BAM 31 December 2016
Grants received	24,800	56,558
Less: Current portion of deferred income	(24,800)	(56,558)
	-	-

Deferred income arising from the grants received relates to the equipment donated to the Company (mainly by the Government).

Movements on deferred income for the six-month period ended 30 June 2017 and FY 2016 were as follows:

	Period ended 30 June 2017	In BAM Year ended 31 December 2016
Balance as of 1 January	56,558	189,636
Reversal credited to other income	(31,758)	(133,078)
Balance, end of the period/year	24,800	56,558

28. EMPLOYEE BENEFITS

	30 June 2017	In BAM 31 December 2016
Employee benefits		
- non-current portion	5,623,134	6,072,848
- current portion	646,188	646,188
	6,269,322	6,719,036

Long-term provisions for employee benefits as of 30 June 2017, in the amount of BAM 6,269,322 relate to the non-current and current provisions formed based on the calculation of present value of accumulated employee entitlements to retirement benefits and jubilee awards in accordance with IAS 19 *Employee Benefits*.

The cost associated with the retirement benefits and jubilee awards are determined using the projected unit credit method, with actuarial calculation performed as of the date of the financial position statement. Accordingly, the company has hired a certified actuary to perform the calculation of the present value of accumulated rights to retirement benefits and jubilee awards as at 31 December 2016 on behalf of the Company.

When calculating the present value of these accumulated rights to retirement benefits and jubilee awards, the authorized actuary used the following assumptions: a discount rate of 4.5% annually, projected salary growth rate 1.4% annually, projected years of service for retirement - 40 years for men and 35 years for women, the projected staff turnover on the basis of historical data on the movement of employees in the past, officially published mortality rates and other conditions necessary for exercising the right to retirement benefits and jubilee awards.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017
28. EMPLOYEE BENEFITS (Continued)

Numbers of monthly salaries for the jubilee awards are shown in the table below:

Number of years of service with the Company	Number of salaries
10	0.5
20	1
30	1.5
40	0.5

Given the fact that there were no significant fluctuations in the number of employees or changes to other actuarial assumptions, in the six-month period ended 30 June 2017, the Company updated the aforesaid actuarial calculation of the present value of the accumulated employee entitlements to retirement benefits and jubilee awards.

Movements on long-term provisions for employee benefits as of 30 June 2017 and for FY 2016 were as follows:

	In BAM			
	Current portion		Non-current portion	
	30 June 2017	31 December 2016	30 June 2017	31 December 2016

35. EARNINGS PER SHARE

	In BAM	
	Period ended 30 June	
	2017	2016
Profit for the period	25,424,296	31,220,030
Weighted average number of shares issued	491,383,755	491,383,755
Earnings per share (basic and diluted)	0.0517	0.0635

On 5 June 2017, the Company's Assembly enacted Decision on the Distribution of Profit Earned in 2016, whereby the profit was distributed to the shareholders in accordance with the Company's Statute, in the amount of BAM 38,950,324 (BAM 0.07927 per share).

Liabilities for the remaining unpaid dividends to the shareholders as of 30 June 2017 amounted to BAM 25,954,295 (31 December 2016 BAM 22,946,430).

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017

36. CONTINGENT LIABILITIES

Litigation

The Company appears at times as a defendant in legal suits filed against it by legal entities and private individuals claiming damages. The estimated contingent liabilities arising from lawsuits filed against the Company as of 30 June 2017 amount to BAM 88,881,226 excluding effects of penalty interest and court expenses.

The most significant court proceedings are those involving the following plaintiffs: Blicnet d.o.o. Banja Luka claiming BAM 41.5 million and Crumbgroup d.o.o. Bijeljina claiming BAM 42 million. Management uses legal advisory services in these cases, based on which it believes that the probability of negative outcomes for the Company is very remote, given that these lawsuits are lacking in merit.

Such belief is based on the fact that in all these suits, within legally prescribed proceedings, the competent courts have already established that there had been no illegality on the part of the Company. Management further expects that the final outcome of these disputes will not significantly or materially hinder the financial operations of the Company. Based on the aforesaid facts, the Company has not recorded provisions for the said legal suits nor does it consider any further disclosures in respect thereof necessary.

As disclosed in *Note 29* to the financial statements, as of 30 June 2017, the Company established provisions for potential losses which may arise from litigations in the total amount of BAM 58,533. The Company's management estimates that no material losses shall arise from the outcomes of the remaining litigations in progress, in excess of the amount for which provision has been made.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017
37. SEGMENT REPORTING
37.1. Segment Information

As of 30 June 2017, the Company's reporting segments in accordance with IFRS 8, were as follows:

1. Fixed-line telephony and Internet,
2. Mobile telephony.

37.2. Segment Revenues and Results

The segment revenues and results for the six-month period ended 30 June 2017 are presented in the following table:

	In BAM		
	Fixed-Line Telephony and Internet	Mobile Telephony	Total
30 June 2017

Profit for the period	20,955,598	10,264,432	31,220,030

Segment revenues and results reported above (for the six-month period ended as of 30 June 2017 and 2016) represent revenue generated from external customers. Inter-segment sales during the period have been eliminated.

The accounting policies of the reporting segments are the same as the Company's accounting policies described in *Note 3*.

Segment profit represents the profit earned by each segment with allocation of all costs, on the basis of the revenues earned by each individual reporting segment. This is the measure reported to the chief operating decision makers for the purposes of adequate resource allocation and assessment of segment performance.

The Company's revenue from its major services is presented in detail in *Note 5* to the separate financial statements.

Total liabilities	66,459,951	112,300,518	178,760,469

For the purposes of monitoring segment performance and allocating adequate resources among the segments, all assets and liabilities are allocated to the reporting segments. Assets used jointly by the segments, as well as liabilities for which reporting segments are jointly liable, are allocated on the basis of the revenues earned by each individual reporting segment.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017
37. SEGMENT REPORTING (Continued)
37.4. Capital Expenditures of the Segments

Capital expenditures of the segments were as follows:

	In BAM		
	Fixed-Line Telephony and Internet	Mobile Telephony	Total
30 June 2017			
Capital investments (Notes 12 and 13)	16,808,790	7,947,267	24,756,057
30 June 2016			
Capital investments (Notes 12 and 13)	16,918,943	6,428,086	23,347,029

Capital expenditures include purchases of intangible assets, property and equipment during the reporting period.

37.5 Information about Major Customers

Due to the nature of telecommunication services, the Company does not have material concentration of large customers as it has a great number of unrelated customers with individually small turnover.

37.6. Geographical Information

The Company's country of origin and, at the same time, the centre of business operations is Bosnia and Herzegovina. The Company generates most of its income in the territory of Bosnia and Herzegovina (92% of the total operating income).

38. FINANCIAL INSTRUMENTS
38.1. Capital Risk Management

There is no formal capital risk management framework implemented by the Company. The Management Board of the Company considers capital risk with a view to alleviating risks and ensuring that the Company will be able to continue as a going concern while maximizing the return to stakeholders through the optimization of the debt to equity ratio.

The capital structure of the Company consists of the borrowings (disclosed in Note 26), cash and cash equivalents and equity, comprising issued capital, reserves and retained earnings.

The Management Board of the Company reviews the capital structure on an as-needed basis. Based on this review, the Company will balance its overall capital structure through new long-term investments as well as obtaining new borrowings or redemption of the existing debt. The Company's overall capital management strategy remains unchanged.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017

38. FINANCIAL INSTRUMENTS (Continued)

38.1. Financial Risk Management (Continued)

38.1.1. Debt to Equity Ratio

The Company's gearing ratios as of the period were as follows:

	30 June 2017	In BAM 31 December 2016
Debt (a)	53,866,055	53,650,240
Cash and cash equivalents	(13,313,712)	(28,140,074)
Net debt	40,552,343	25,510,166
Equity (b)	663,741,177	677,266,347
<i>Debt to equity ratio</i>	6.11%	3.77%

- (a) Debt relates to long-term borrowings and current portion of long-term liabilities.
(b) Equity includes share capital, reserves and retained earnings.

38.1.2. Significant Accounting Policies Regarding Financial Instruments

The review of significant accounting policies and adopted principles, including the recognition criteria, basis of measurement and recognition of income and expenses for each category of financial assets, financial liabilities and equity, is set out in Note 3 to the separate financial statements.

38.1.3. Categories of Financial Instruments

Categories of financial instruments are presented as follows:

	30 June 2017	In BAM 31 December 2016
Financial assets		
Loans and receivables (including cash and cash equivalents)	107,105,379	121,492,538
Financial assets held to maturity	66,633	75,819
Securities available for sale	7,260	6,402
	<u>107,179,272</u>	<u>121,574,759</u>
Financial liabilities - at amortized cost	100,325,650	121,833,601

38.2. Financial Risk Management

In its regular course of business, the Company is exposed to certain financial risks, which are: market risk (comprised of currency risk, interest rate risk and price risk), liquidity risk and credit risk.

The risk management in the Company is focused on minimizing the potential adverse effects on the Company's financial position and business operations, contingent on the volatility of the market. The accounting policies adopted by the Company regulate the risk management.

The Company does not enter into transactions with derivative instruments, such as interest rate swaps or forwards. In addition, in the six-month period ended 30 June 2017, the Company undertook no transactions with financial instruments.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017
38. FINANCIAL INSTRUMENTS (Continued)
38.2. Financial Risk Management (Continued)
(1) Market Risk
(a) Currency Risk

Although the Company performs a number of its transactions in foreign currencies, the Company's management holds that the Company is not significantly exposed to currency risk in transactions in the country and abroad, as it mostly performs its business operations in the local currency (Convertible Mark), as well as in EUR, to which the Convertible Mark is indexed-linked (1 EUR = 1.95583). Accordingly, the Company did not perform analysis of the sensitivity to the changes of the foreign exchange rates, except for the USD currency as it has certain liabilities denominated in USD.

The carrying values of financial assets and liabilities of the Company expressed in foreign currencies as of the reporting date were as follows:

	Assets		Liabilities	
	30 June 2017	31 December 2016	30 June 2017	31 December 2016
EUR	6,748,150	9,381,540	50,344,297	57,501,316
USD	131,924	141,711	3,855,773	3,774,760
CHF	1,518	1,553	-	2,666
GBP	1,551	1,746	1,116	136
RSD	80	215	-	147
	6,883,223	9,526,765	54,201,186	61,279,025

Sensitivity Analysis

Sensitivity analysis to changes in foreign currency was made only for USD, and determined based on the exposure to foreign currency exchange rate at the end of the reporting period. If the USD exchange rate were 10% higher/lower on an annual basis, the Company's net profit for the six-month period ended 30 June 2017 would have decreased / increased by the amount of BAM 27,082 (for the six-month period ended 30 June 2016: BAM 3,605).

(b) Interest Rate Risk

The Company is exposed to various risks which through the effects of the fluctuations in the market interest rates influence its financial position and cash flows. Given that the Company has no significant interest-bearing assets, the Company's income is to a great extent independent of interest rate risk.

The Company's risk from the changes in the interest rates arises primarily on the long-term borrowings from banks and suppliers. The loans obtained at variable interest rates make the Company' susceptible to cash flow interest rate risk, while the loans obtained at fixed interest rates expose the Company to the fair value interest rate risk.

During the six-month period ended 30 June 2017, the largest portion of the liabilities arising from borrowings had a variable interest rate which was linked to EURIBOR. Borrowings with variable interest rates were mostly denominated in foreign currency (EUR).

The Company analyses its exposure to interest rate risk on a dynamic basis taking into consideration the alternative sources for financing and refinancing, of long-term liabilities in the first place, as these represent the most important interest-bearing item. The Company still does not swap variable for fixed interest rates, and vice versa, but takes steps to securitize loans from banks at more favourable terms.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017

38. FINANCIAL INSTRUMENTS (Continued)

38.2. Financial Risk Management (Continued)

(1) Market Risk (Continued)

(b) Interest Rate Risk (Continued)

Sensitivity Analysis

Sensitivity analysis to changes in interest rates is determined on the basis of exposure to interest rate of non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis has been prepared assuming that the outstanding liabilities at the end of the reporting period remained outstanding throughout the reporting period.

Had interest rates applied to cash loans and loans in kind during the reporting period been higher/lower by 10% annually where other variables remained unaltered, the Company's net profit for the six-month period ended 30 June 2017 would have decreased / increased by BAM 17,091 (for the six-month period ended 30 June 2016: BAM 16,496) as a result of higher/lower interest expenses.

(c) Equity Price Risk

During the reporting period of six months ended on 30 June 2017, the Company was exposed to a risk of price changes of equity securities. The aforesaid investments are held for strategic purposes rather than everyday trading, and they are not actively traded.

In addition, the Company is exposed to a risk of price changes due to intensive competition in the telecommunications industry.

(2) Liquidity Risk

On the Company level, liquidity management is centralized. Ultimate responsibility for the liquidity risk management rests with the Company's management, which has established certain procedures for the management of the Company's short and long-term liquidity. The Company handles its assets and liabilities in a manner that ensures that the Company is able to settle its liabilities at any moment.

The Company has a sufficient amount of highly liquid assets (cash and cash equivalents), and continuous cash flows from the provision of services which enables it to discharge its liabilities when due.

The Company does not make use of financial derivatives.

In order to manage liquidity risk, the Company has adopted financial policies which define dispersion on decision-making levels in the course of the acquisition of certain goods/services. This dispersion is ensured by limiting the authority of certain persons or bodies within the Company to make decisions on certain acquisitions.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017

38. FINANCIAL INSTRUMENTS (Continued)

38.2. Financial Risk Management (Continued)

(2) Liquidity Risk (Continued)

The review of maturities of financial instruments (assets and liabilities) is made based on the undiscounted cash flows of financial assets and financial liabilities, including interest charged to those assets which will be earned (except from the assets based on which the Company expects cash flow in another period), i.e., based on the earliest date on which the Company can be expected to settle the liability incurred.

The amounts included in the table above for financial instruments (assets and liabilities) at variable interest rates may be subject to change if the changes in variable interest rates are different from the estimated interest rate established at the end of the reporting period.

(3) Credit Risk

Credit risk is the risk that counterparty will default on its contractual obligations to the Company, which will result in financial loss to the Company. The Company has adopted policies regarding the monitoring of customer creditworthiness as well as requiring certain security (collateral), where possible, with a view to reducing the risk of potential financial losses resulting from failure to meet certain contractual obligations.

Credit risk is inherent in receivables from corporate and retail customers, in cash and cash equivalents, deposits held with banks and financial institutions, and commitments.

The Company is exposed to credit risk to a limited extent. As hedges against credit risk, certain measures and activities have been taken on the Company level. In case any service user falls behind in settlement of liabilities to the Company, further services to such a user are suspended.

In addition, the Company does not have material credit risk concentration in receivables as it has a large number of unrelated customers with individually small amounts of debt. Apart from disabling further use of services, the following procedures of collection are also in place: debt rescheduling, offsets with legal entities, legal suits, out-of-court settlements and other.

The collection of loans extended to the Company employees is ensured through salary garnishment, i.e., by decreasing salaries for the adequate amount of repayment instalments, whereas the employees leaving the Company enter agreements to regulate the manner of repayment of the outstanding loan portion upon leaving the Company.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017
38. FINANCIAL INSTRUMENTS (Continued)
38.2. Financial Risk Management (Continued)
(4) Fair Value
Fair Value of Financial Assets Other than Measured at Fair Value

Except as described below, management believes that the carrying values of financial assets and financial liabilities recognized in the separate financial statements approximate their fair values.

In BAM

	30 June 2017		31 December 2016	
	Carrying Value	Fair Value	Carrying Value	Fair Value
<i>Financial assets:</i>				
Financial assets held to maturity	66,632	52,827	75,819	61,256
Total	66,632	52,827	75,819	61,256

The assumptions used to estimate current fair values of financial assets/liabilities are summarized below:

- For short-term investments, loans and liabilities, the carrying value approximates their fair value due to their short maturity.
- For long-term investments and liabilities fair value is calculated using the method of discounting future cash flows at a current market interest rate, which is available to the Company for similar financial instruments.
- For securities available for sale that are traded in an active market, fair value calculation is based on the current market value of listed securities.

The following table provides an analysis of financial instruments that were measured subsequent to initial recognition at fair value, grouped into levels 1 to 3, based on the degree to which the fair value is observable.

- Level 1 of determination the fair value is derived from the quoted market value (non-adjusted) in active markets for identical assets and liabilities.
- Level 2 determination the fair value is derived from the input parameters, different from the quoted market value included in Level 1, which are observable from the assets or liabilities, directly (e.g. prices) or indirectly (e.g. derived from prices).
- Level 3 of determining the fair value is derived from the assessment techniques that include the input parameters for financial assets and financial liabilities, which represent data that cannot be found on the market (unobservable input parameters).

	In BAM			
	Level 1	Level 2	Level 3	30 June 2017 Total
<i>Financial assets:</i>				
Available for sale:				
- Listed securities (<i>Note 16</i>)	6,860	-	400	7,260
Total	6,860	-	400	7,260

Total losses presented in the other comprehensive income relate to the financial assets available for sale (Nova Banka a.d. Banja Luka, *Note 16*), and are stated as a change in "Unrealized gains/(losses) from securities".

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017
39. OPERATING LEASE ARRANGEMENTS

The minimum amount of rent recognized as expenses during the six-month period ended 30 June 2017 amounted to BAM 8,331,994 (comparative period of 2016: BAM 8,212,862).

The Company's outstanding commitments under operating lease contracts relating to business premises and land are as follows:

	30 June 2017	In BAM 31 December 2016
Within 1 year	8,405,830	10,831,677
From 1 to 5 years	40,401,801	38,792,747
Over 5 years	29,664,265	31,551,066
	78,471,896	81,175,490

40. TAXATION RISKS

The Republic of Srpska and Bosnia and Herzegovina currently have several tax laws in effect, as imposed by various governmental agencies. The applicable taxes include: a value added tax, corporate tax, and payroll (social) taxes, among others. Besides that, the regulations governing these taxes were not enforced for substantial periods of time; in contrast to similar legislation in more developed market economies. Moreover, the regulations defining the implementation of these laws are often unclear or non-existent.

Hence, with regard to tax issues there is limited number of cases that can be used as an example. Often, contrary opinions pertaining to legal interpretations exist both among, and within, governmental ministries and organizations, thusly creating uncertainties and areas of legal contention. Tax declarations, together with other legal compliance matters (e.g., customs and currency control matters) are subject to the review and investigation by a number of authorities that are legally enabled to impose extremely severe fines, penalties and interest charges.

The interpretation of tax legislation by tax authorities as applied to the transactions and activity of the Company may not coincide with that of the management. As a result, transactions may be challenged by tax authorities and the Company may be assessed additional taxes, penalties and interest, which can be significant. In accordance with the Law on Tax Authority of the Republic of Srpska, expiration period of the tax liability is five years. This practically means that tax authorities could determine payment of outstanding liabilities in the period of five years from the origination of the liability. The afore-described situation creates tax risks in the Republic of Srpska and Bosnia and Herzegovina that are substantially more significant than those typically existing in countries with more developed tax systems.

In addition, the Company performs a significant number of business transactions with its related parties. Although the Company's management is of the opinion that the documentation on transfer prices is sufficient and adequate, it is uncertain whether the requirements and interpretations of the tax authorities differ from those of the management. The Company's management believes that no varying interpretations could have material impact on the Company's financial statements on the whole.

41. CURRENT ECONOMIC SITUATION AND ITS IMPACT ON THE COMPANY

As expected, throughout the reporting period, like most other business entities in the Republic of Srpska, the Company's operations were also under a certain influence of the recent financial crisis and deteriorating economic conditions in the market of the Republic of Srpska and Bosnia and Herzegovina. Due to the weakening of domestic economic activities in the local market in the Republic of Srpska and Bosnia and Herzegovina, the Company will probably operate in a more difficult and uncertain economic environment in the forthcoming period as well.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the Six-Month Period Ended 30 June 2017

42. EXCHANGE RATES

The official exchange rates for major currencies, as determined in the Interbank Foreign Exchange Market and used in the translation of the statement of financial position components denominated in foreign currencies into BAM were as follows:

	30 June 2017	In BAM 31 December 2016
Euro (EUR)	1.95583	1.95583
Serbian Dinar (RSD)	0.01614	0.01584
American Dollar (USD)	1.71369	1.85545
Swiss Franc (CHF)	1.78860	1.82124
